11. Risk Warning

We are required by law to inform you that trading is risky. There are various factors, such as the international prices volatility, which is very difficult to predict. Due to such volatility, in

Do not enter into transactions or invest funds that are above your financial abilities. Also, certain financial products are not suitable for people without the relevant knowledge and / or experience. This is why we provide you with different options in terms of products and services, depending on your abilities and knowledge. If you would still wish to open an account, we will ask you to acknowledge that you are aware of the financial risks.

12. Misquotes / Mispricing

It is possible, but extremely rare, that a transaction may be performed on a wrong price due a miss-quote price feed from any of our third party liquidity providers or through an unexpected technical fault. Equally, there may be delays due to internet connection or occasions where a position is opened or closed based on latent prices that do not reflect the correct market prices at the time of transaction, resulting in an inaccurate profit or inaccurate loss.

Such events may affect your transactions and our business. In this case, we will take all the necessary measures, immediately, to remedy and rectify the situation, as it is fair and suited to each case. Remedies include correcting deal entry prices or exit prices according to the correct market rates at the time of transaction. We may need to cancel any transaction(s) which are executed wrongly due to the 'price misquote', for example from preset limit/pending orders been triggered due to mispricing. We make our best efforts to contact and inform you for our actions, by telephone or by e-mail.

13. Suspension of Services

In the unlikely event that we may need to suspend our services, on both our proprietary and third party platforms, we will terminate our relationship with you and subsequently close all open positions at payouts fair and reasonable at the time. Such payouts shall be determined by reference to the daily values published on our website that are related to the inter-bank trading data received on financial contract quotes. Further to the above information, we may impose, at our discretion, trading volume and other restrictions on your accounts
